Proposed Shifts in Future Programs of Study and IBC Timelines: Discuss communication needs relevant to accountability

Implementation of new Science TEKS: Discuss communication needs relevant to accountability

Exit Survey (5 minutes)

Upcoming meeting 4/2

Review of Proposed 2024 Accountability Manual Public Comments

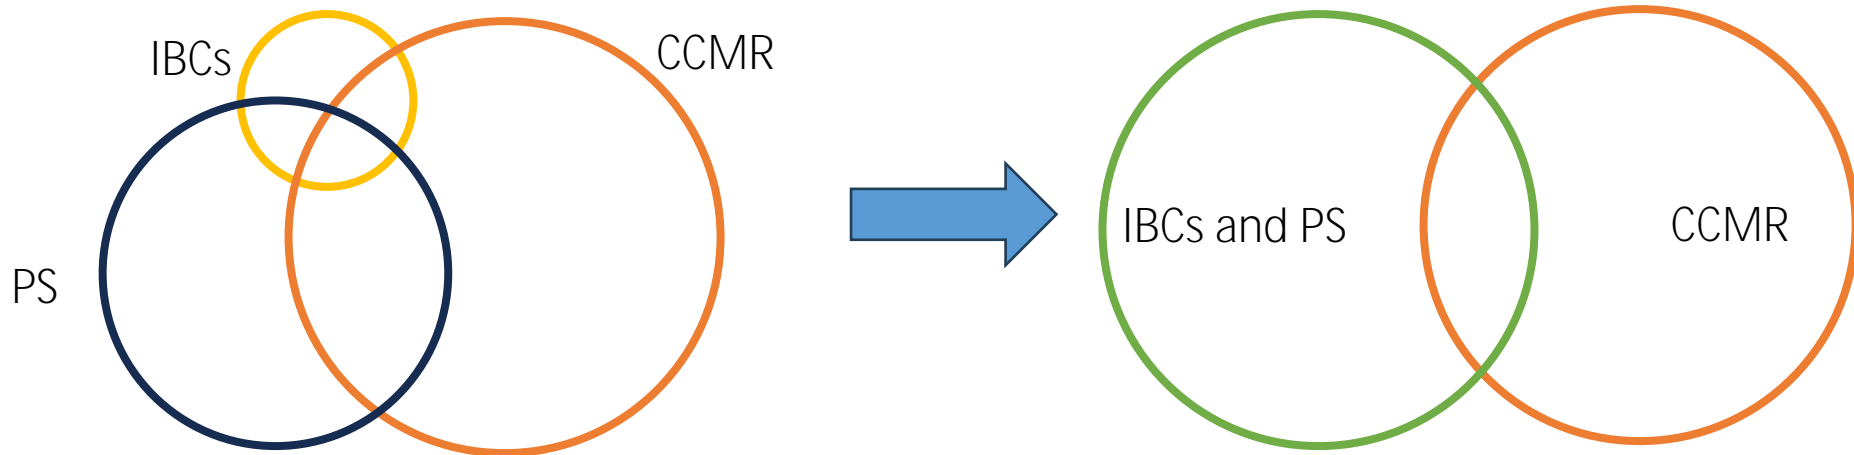

Three important cycles interact in CCMR:

1. The industry-based certification list is currently updated every two years
2. The programs of study are currently updated every four years
3. The accountability system is refreshed every five years

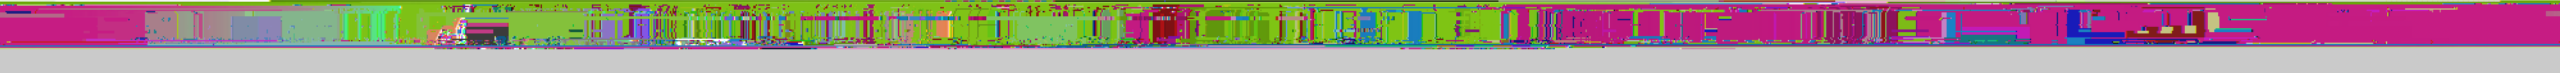

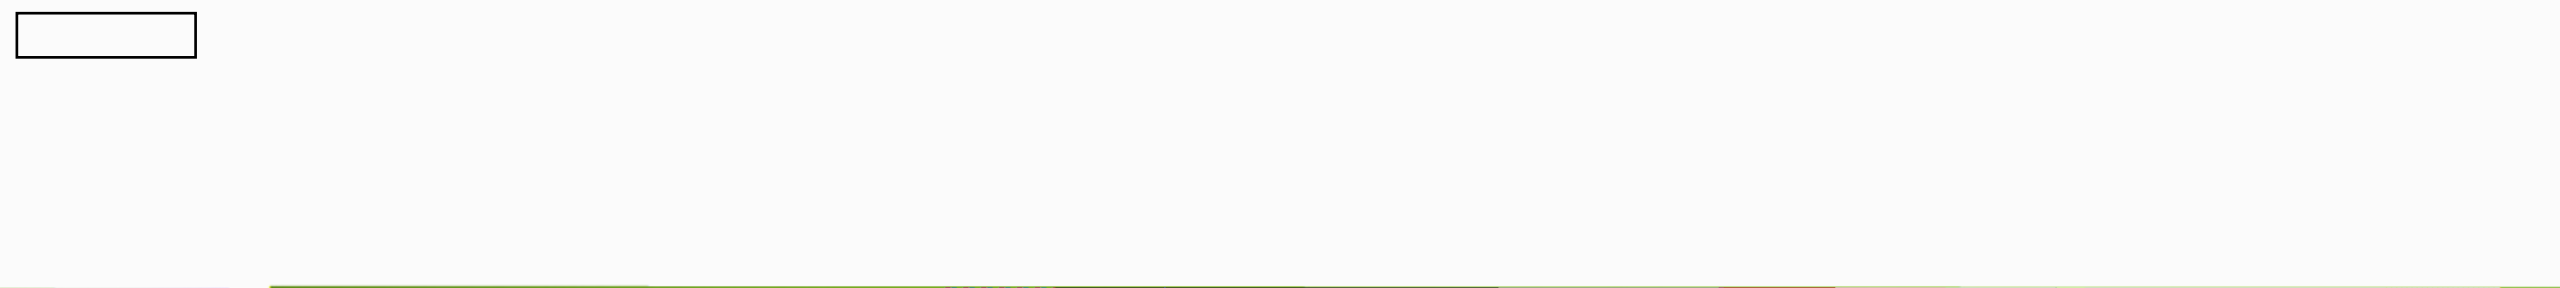

For future cycles we intend to adjust these timelines to enable a more coherent planning and implementation cycle for LEAs

Move to 5-year cycle for both IBCs and Programs of Study
Offset with CCMR's 5-year cycle.

We are here

Does the proposed shift to a 5-year cycle for IBCs and programs of study make sense? What communication or support would LEAs need to prepare for the shift?

What would be helpful to add to the 2024 manual about this timeline (through 2035 accountability) to provide advanced notice and clarity?

2023-2024

Instruction: Current TEKS
(Adopted 2017)

Assessment: [Current TEKS](#)

2024-2025

Transition Year

Instruction: NEW TEKS
(Adopted 2020 and 2021)

Assessment: [Content that overlaps the current and new TEKS using Transition 2020-2021](#)

2025-2026

Full Implementation

Instruction: NEW TEKS
(Adopted 2020 and 2021)

Assessment: NEW TEKS using
NEW blueprint

There will be no changes to how science results are included in A-F accountability throughout the transition to the updated science TEKS.

State and federal law requires us to include in accountability.

Psychometricians and Texas Technical Advisory Committee have confirmed that the test remains valid and comparable and can be used for accountability purposes throughout the transition to updated science TEKS.

Timing for standard-setting/scoring should not be a problem.

2024 and Beyond Accountability Communications:

What corresponding communication or information can Performance Reporting provide to support?

Minutes for the meeting will be emailed to the Committee for review

TAAG will reconvene to review the *Proposed 2024 Accountability Manual* public comments on April 2nd at 9am.

Thank you for your continued feedback.
